Construction within any servitude is done at the sole risk of the owner. It is your responsibility to determine if your proposed construction will in fact encroach upon a servitude (whether public or private) and whether you accept the potential of a public entity (or private owner) determining the construction needs to be moved at a later date. If it is determined that the construction creates an impediment to, or otherwise impacts, the public services as designed and shown on plans approved by any Parish/City/Public entity, or if it encroaches upon private land, then the construction must be remedied at the sole expense of the owner. Owner expressly acknowledges that neither the Developer, the HOA or any related entity or individual will be responsible for any damage or expense related to removal, repair or replacement.

I (we) have read and agree to all of the conditions listed above, and I (we) agree to abide by the decision of the architectural control committee.
